Solace  
.....  
. EVERYDAY ORGANICS .

### Our Philosophy...

Solace Everyday Organics is a recently established distribution, retail and online organic beauty boutique, offering organic cosmetics, skin care, hair care and perfumery targeting customers in UAE/GCC. The business is based in Abu Dhabi, the first of its kind in the region and houses more than 35 brands of various products primarily from USA, Europe, Australia, Brazil, Japan etc... All the ranges sold are free of harmful additives, preservatives, synthetic fragrances and petroleum based ingredients.

Our first boutique opened its doors on 3rd June 2009, at Level G - Al Wahda Mall, in Abu Dhabi supplying a complete range of quality eco products, ranging from lipsticks to nail polishes, concealers and loose powders, body treatments as well as extensive all-natural hair coloring products and not to forget caring for men and baby the green way. We have a pioneering line of totally organic beauty solutions which are free of chemicals and preservatives such as parabens, phthalates, sulfates etc... which have been getting so much bad press in recent years. Many people are very concerned about the levels of potentially harmful chemicals and preservatives in beauty formulations.

At Solace we realized the long-term potential damage from cumulative chemical build-up in our systems and also the environmental impact this might have. So we began to research on studies and products, kick-started the organic movement. With our expert choosing facilities and knowledgeable staff, Solace offers professional advice to all its customers about skin care, sensitivities and organic ingredients, ensuring they receive the correct products for their skin type.

### COMMITTED TO CONSERVE NATURE - *Beautifully...*

Our selection criteria: IF WE LOVE IT . WE SELL IT.  
Some certifications our products have:

and many more in process every time... We are always searching for and proud to represent quality products/formulas. We keep testing different products ourselves and in the market and keep up-to-date with good ones we decide to continue. All products we deal with are organic or at least 100% natural / free from undesirable chemicals with no compromise on quality and efficacy.
